

Water Bottling Plant Planning Checklist

Use this checklist before requesting a complete line quotation.

- ☐ Confirm launch bottle sizes, neck finish, caps and label material.
- ☐ Confirm realistic sales demand, shifts and target bottles per hour.
- ☐ Obtain a raw water test where possible; do not guess treatment.
- ☐ Decide purchased bottles versus in-house PET bottle blowing.
- ☐ Define filling, cap feeding, labeling, coding and pack route.
- ☐ Share factory dimensions, ceiling, doors, columns and drainage.
- ☐ Separate supplier scope, buyer-side utilities and local civil work.
- ☐ Confirm compressors, chiller, conveyors, accumulation and controls.
- ☐ Confirm installation, commissioning, training and startup spares.
- ☐ Budget freight, insurance, duty, taxes, laboratory and working capital.

Planning document only. It is not a quotation or engineering guarantee.
